This is a feature of the book worthy of special mention -a feature peculiar, to this book. Any good medical work will tell you what to do, IF YOU KNOW WHAT THE DIS-EASE 18, but the difficulty is you cannot tell from the book what it is. To find out you are obliged to send for a physician. The books are written with this view: written generally in the interest of the profession. With "Our Family Physician" you can tell yourself what the matter is, just as uncrringly as a doctor could. In this respect the book differs from all others; and even if you have others you need this book also. It is a book that after using six months no parent would part with for \$30.

It will save from \$10 to \$50 every year in any family.

We have had a special edition of this standard and well-known work elegantly and, 544 pages—the same style in which in bookstores it sells for \$3-printed for by this paper as a premium. Until February I, 1887, we shall offer this valuable book together with a year's subscription to the WEEKLY REPUBLIC for \$1.50.

In other words we will sell you the book for \$1.50 less than its regular established price and give you a year's subscription to the WERKLY REPUBLIC for nothing.

We are consident we can do it, but understand, of course, that the inducement must be more than ordinary. Hence, we have not fooled away time with some trifling and mexpensive article. We have secured something worth while—an article that every family needs, and that nobody can go anywhere and buy for less than S3. If all the extra subscribers we get in this way should, at the end of the year drop the paper and never subscribe again, of course we should suffer a very considerable loss. But our experience as publishers warrants the belief that very few of them will drop it—that the most of them will renew their subscriptions year after year for many years to come, because they will want the paper—and in that way we expect-not this year, but in future years—to get our profits.
